# Air massage

## Aerofeel

### Relax in the rippling effect of bursting bubbles

**Aerofeel rides the wellness wave with individual quiet air jets and check valves providing immaculate purity.** Intelligently positioned around the interior wall and in tub's backrest, tiny openings create a gentle rippling massage caressing your skin from head to toe. Aerofeel also includes an oval-shaped heated backrest (not available on combined systems).

### MAAX perimeter air system: Technology. Hygiene. Purity.

MAAX perimeter air system incorporates by far the most hygienic and the quietest design on the market, ensuring a most exhilarating experience of wellness.

#### Features & Benefits

##### Advanced check valve technology

The quiet air injectors used in our perimeter air system feature a check valve system to ensure water does not flow back into the system. When air is pushed through the airjets, the valve is opened, and a relaxing ripple effect is created in the tub. When the air blower shuts off, the valve activates, preventing backflow of water and keeping the system dry. Soothing oils and even exotic mud bath preparations can enhance your daily massage session.

##### Automated drying cycle

The system's automatic drying cycle activates 20 minutes after each bath session, purging any water droplets that may be left on the outside of the air injectors, limiting deposits. The reliable technology behind MAAX systems ensures that you enjoy a hygienic, gentle and relaxing massage.

**Up to 35% quieter than competitive systems**

##### FDA-approved feeding tube

Non-porous, waterproof piping is used to distribute air to the injectors. Compliant with strict Food and Drug Administration standards, the pipe material guarantees an immaculate interior environment that prevents bacteria from lodging in any porous walls. All this means that both the safety of your system and your massage experience can be summed up in one word: perfect!

# Air massage

## Features & Benefits (cont'd)

- A 36-59 perimeter quiet airjets** with check valves intelligently positioned to provide a gentle rippling, caressing massage
- B Pre-warmed air pushed through** an FDA (Food and Drug Administration) tube bringing you the most hygienic system on the market
- C Oval-shaped heated backrest** providing you a warm sensation across your shoulders and neck. 5-6 airjets in the back
- D Drying cycle starts automatically** 20 minutes after each bath session whether you use the system or not
- E Retro-lit digital control** with electronic timer and multi-speeds, water detector safety block, temperature detector and 1 memory setting for personalized massage action
- F Gentle, cradling massage** for total body experience and up to 35 % quieter than competitive systems

EASY 6-BUTTON CONTROL PANEL

### A Retro-Lit Digital Control:

- A display screen that provides information such as water temperature, the remaining massage time, the water level and a control for the various therapies
- A therapy memory function with one memory key that allows you to set your preferences for your next baths
- Control of massage time and intensity

25-year warranty on check valves
