Get a Fast, Fresh Update for Your Shower Walls

Get the Look of Tile Without the Wait

Give your bathroom a designer's flair with incredible ease with U tile by MAAX. This innovative shower wall solution comes in a range of rich colours, textures and stylish patterns that look and feel like tile and can be easily installed within a day. U tile looks and feels so much like stone and tile that you will dazzle people when you tell them it's not.

The professionals at Robinson Lighting & Bath Centre understand that the way your shower looks impacts the entire bathroom design. So if your shower walls are dingy, full of cracked grout and old tile, it can bring down the appearance of your entire bathroom. No one wants to bathe in an old, dingy shower, so why not update your shower and give a facelift to your entire bathroom in just one weekend with Utile by MAAX.

TRADITIONAL SHOWER PROBLEMS OVERCOME

Until recently, you had two real options for updating your shower. You could opt for tile, which is expensive, difficult to install, and which has inherent issues surrounding the grout and caulk. You could also opt for a one-piece shower surround, which was easier to clean, but devoid of any style.

Utile solves all of these issues, and does it with a great sense of panache at the same time. Utile is a shower wall system with a unique installation and the look and feel of real tile. The panels lock together securely at the corners with MAAX's Ulok system, giving you the

look of a tiled shower with the same ease of cleaning and watertight design as a one-piece shower surround.

Rather than installing the tiles one at a time, you're putting up an entire wall at once, making the entire installation faster and easier than you may have ever thought possible. And with over 20 different styles to choose from, it's easy to update your shower in way that also complements the look of the room as a whole.

PERSONALIZE YOUR LOOK

Every bathroom design needs a focal point, a place where all the other styles and materials in the room come together in one, eye-catching location. With Utile, you can create that focal point right within the shower itself using a variety of different panels and designer styles.

Utile comes in over 20 diverse designs and colour options. Choose from classic subway tile and the clean lines of a modern shower, or something more avant-garde such as an ombre-effect hexagon shower. There are even intricate patterns within the tiles themselves, giving another level of depth and detail to the design, as well as panels with the look and variation of natural stone.

If you're looking to redo your entire bathroom at once, you can also use your Utile shower walls as the starting point to create a cohesive, clean and stylish look for the whole room.

FAST TRANSFORMATION

Tiling a shower takes time – at least two full days for installation and another day or two for the grout to cure. During this time, you're without a shower, which can be a serious drawback for busy families and professionals.

Opting for a one-piece surround is faster, but means that you lose out on style and design. Utile can be installed in just one weekend, and doesn't require the specialized tools and knowledge necessary to put in an intricate tile design. So you can quickly update your shower with the look of subway tile, natural stone, or even mosaics with just a few days of work – perfect for getting your guest bathroom in shape before those holiday guests start arriving.

Utile from MAAX gives you a way to get the look and style of a tile shower without the hassles that so often accompany the material. Now you can have your design and your ease of cleaning, too.

When you're ready to get started on your shower makeover, stop into a Robinson Lighting & Bath Centre showroom where expert staff can help you find the right shower walls and designs for your home. Whether you want to redo your whole bathroom, or just your shower, their design savvy staff is ready to help you achieve the new bathroom of your dreams. Stop in today to get started and see how easy it is to get a fresh new shower with Utile.
